- To Do List :
Desing a To-do-list help to organize our work and keep track of tasks .It makes easier to work done. It organize work in order of priority. To do list aid in managing time effectively by breaking down larger tasks into smaller, more manageable ones and allocating time accordingly. To do list can be used to set and track progress towards short –term and long-

term goals ,helping individuals stay motivated and accountable. It act as exteranl memory aids , ensuring that important tasks are not forgotten or overlooked. It responsive and friendly for every devices.

Technologies : HTML for structure of to-do-list , CSS for style, design and display for different devices and screen sizes and JavaScript to make to-do-list interactive
